L'ODAÏTÈS®
— APOTHECAIRE DES SENS —

Welcome to the intimate Spa at Mama Shelter Dubai by L'ODAÏTÈS

Escape the vibrant energy of Dubai and immerse yourself in a haven of beauty and serenity.

In an atmosphere of sheer softness and tranquility, our spa invites you to discover a curated selection of body and facial treatments by L'ODAÏTÈS, a French botanical skincare brand founded by three sisters (Alya, Sofia and Nabila) paying tribute to their grandmother, an apothecarist. She immersed them in the ritual of harvesting flowers in her wonderful garden, preparing essential oils, engaging them in the art of crafting balms, teaching them the virtues of plants and imparting the deep knowledge of the entire process.

The sisters bring the generational knowledge of this ritual and their individual expertise to breathe new life into these old sensory formulas and to recreate them in Alya's pharmaceutical lab. Together, the three sisters craft epicurean skincare products that blend indulgence with remarkable efficacy, thanks to the powerful properties of noble active ingredients and in particular the date fruit, a time-tested ingredient deeply

cherished by their grandmother, renowned for the exceptional benefits contained in its nectar, seed oil and seed powder (antioxidant, repairing, regenerating, anti-inflammatory, hydrating, brightening, energizing, firming...).

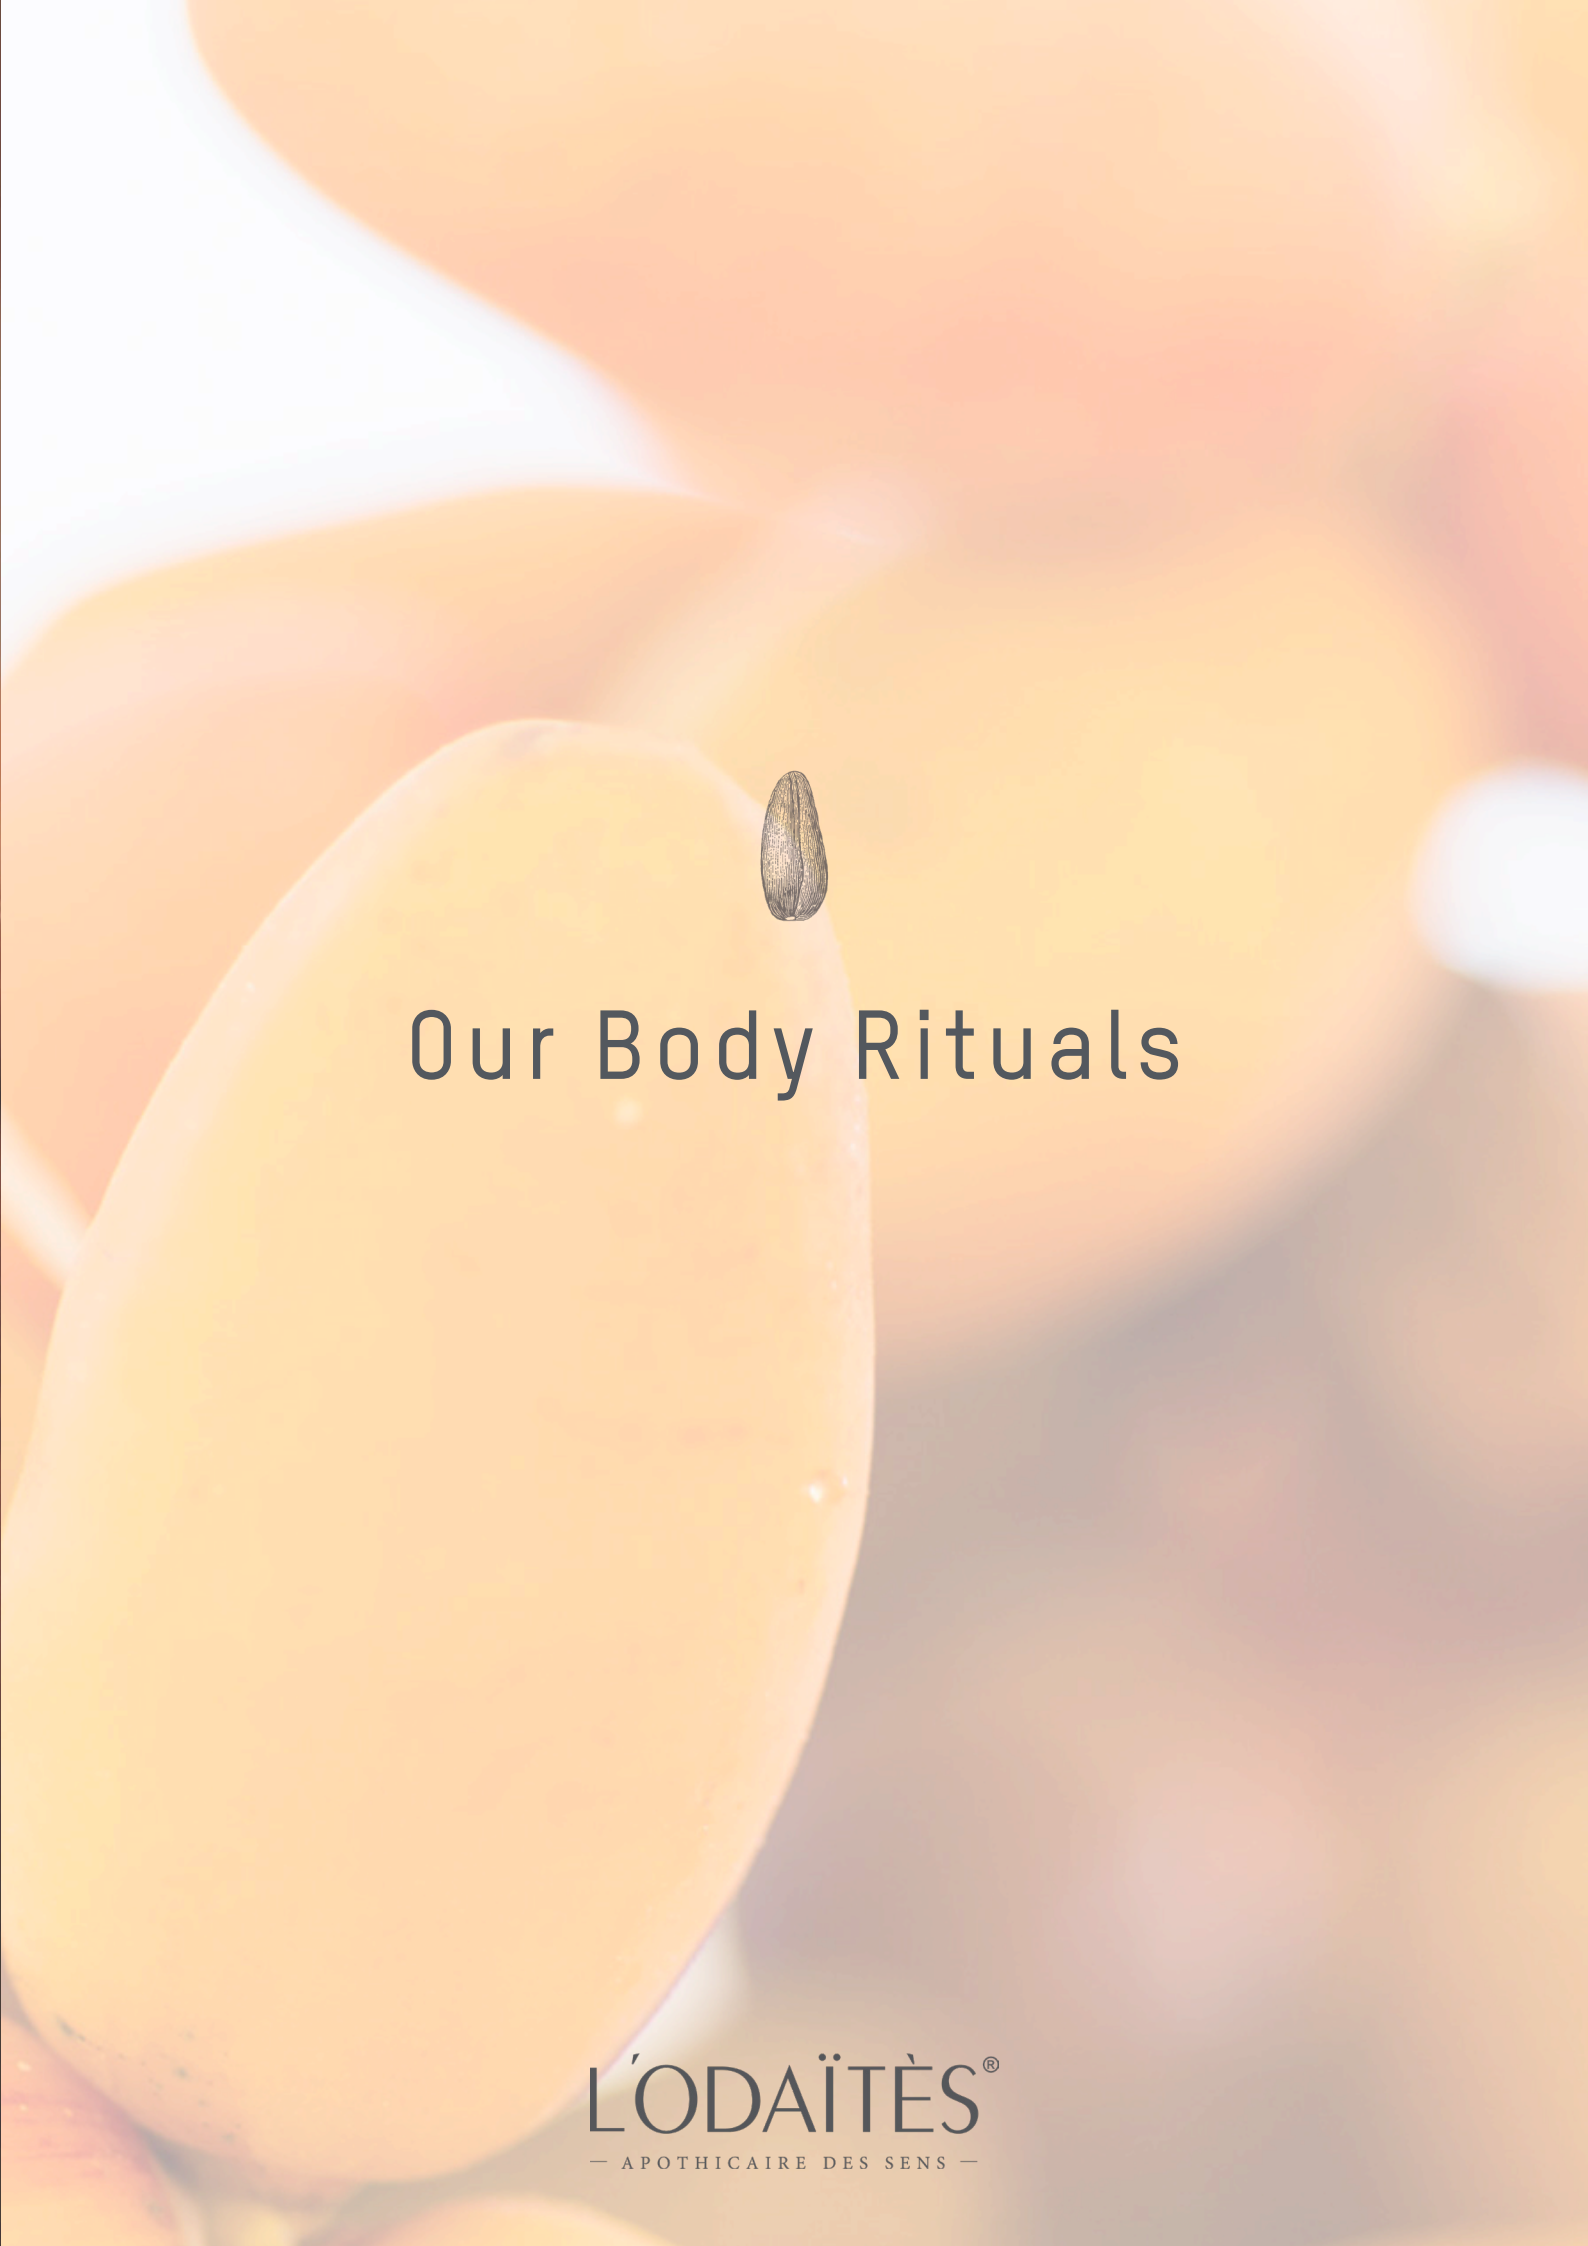

As their grandmother, the three sisters value the plants that thrive in the desert due to their extraordinary capacity to capture energy, retain water, endure harsh sun exposure and self-repair from UV rays and oxidation.

With their velvety texture and addictive scent of orange blossom, each skincare product unveils the potency of its rare active ingredients, meticulously extracted through sophisticated technologies to deliver a truly transformative beauty experience. Honoring DAÏTÈS, the Greek god of feasts, L'ODAÏTÈS skincare offers your skin a sensory feast with the finest essence, and a joy for the senses.

Guided by enveloping maneuvers and the skilled hands of our therapists, give in to a moment of deep relaxation, where expertise meets indulgence to awaken your senses and elevate your beauty.
